BLACKWATTLE
BAR + BREWERY

Blackwattle Bar + Brewery
AV System

Intro

The information details the base system available to incoming events. This covers PA, screen/AV, stage and announcer's additional speakers.

A house drum kit is available as detailed later, otherwise no backline is currently provided. Bands will need to bring their own guitar amps and pedals/effects. For any DJ, they should consider bringing a table for their decks.

No sound engineer is provided with the system. A sound engineer can be sourced on behalf of the band/promoter at their own cost.

No equipment should be substantially moved or reconfigured without consulting Blackwattle Bar + Brewery staff.

Stage

The stage comprises a roughly 3m x 2.5m stage, 60cm high. Multiple power sockets are available on stage.

Lighting

Some lighting is available and can be configured by the promoter. Certain scenes are reserved and should not be overwritten. These are identified on the DMX controller.

PA & sound equipment

<u>Audio Console:</u>

- Allen & Heath QU-5 (No plugin add-ons).
- A&H AR2412 stage rack, with a 16/4 analogue snake onto stage.
- Monitors mixed from FOH.

Prepared by: C Anderson
Prepared on: 12th June 2026

PA System (Left-Right)

- Tops: 1x Alcons Audio VR12 per side
- Subs: 1x Alcons Audio BF151 per side
- Amplification: Alcons Audio Director 6

Foldback:

- Mixed from FOH
- 4 x Quest QM12-MP powered by the Director 6

Mics & DIs:

- 3 x SE V7 vocal microphones
- 1 x Switch microphones
- 1 x Klark Teknik PRO DI AV2 DI 22P
- 1 x Beringer ultragain DI

House drum kit

We have a house drum kit available as per specifications below nd photos at the end of this document.

- 20" bass drum
- 12", 14", 16" toms
- Snare drum
- Drum pedal with double chain drive and beater angle adjustment
- 13" hi–hat and pedal
- 2 Crash cymbals 17" & 21"

Screen & Projector

The screen can be included in a hire. No AV technician is provided. Any assistance required from Blackwattle Bar + Brewery staff will be on charged at cost.

The screen is a high quality 5.8m wide screen by 3.3m high. It supports 16:9 and other common ratios. The projector is a Sony VPL – PHZ51 laser projector. It doesn't include a media player. There is a Chromecast 4k streaming unit attached which can play from various internet sources including YouTube and can also have screen casting enabled. There is also direct HDMI cable input available. Note that the HDMI option is video only, no sound. If this is the preferred option, then there will be additional costs associated with establishing the sound configuration.

It is usually recommended that any AV presentations are converted to videos and played via YouTube.

Please note, we can only stream audio and video from the internet where we are licensed to do so. We have a Stan license but do not have a Fox Sport license.

Additional equipment

In addition to the above equipment a separate JBL-600 speaker with microphone can be provided for other activities such as speeches.

There is a piano available – adults only.

End of performance

Upon conclusion of the performance, the performer(s) are expected to leave the stage and equipment as they found it. Failure to do so may incur a charge from the venue for the effort involved in resolving this.
